

# CARIPUR

## Commercial/Residential High-volume purification

Caripur H2O is a line of whole house drinking water Caripur H2O® Lux is our residential commercial unit designed to provide in excess of 25 gallons per minute drinking water. It has all the same capabilities as our other units (including Binary Star) and includes water softening as well as higher capacity flow.

- Core Technology: Our technology removes microbes, chemicals, heavy metals, hardness, and sediment from your water before it reaches your plumbing, your fixtures, and your water heater.
- Soft to the Touch: Our built-in water softening technology transforms the ordinary into something deliciously extraordinary by removing hardness from the water. It will invigorate your showers and make your bath a magical experience as you slip into the softened water, creating luxuriously rich lathers and suds to slide off the skin. No more residue after showers, and even towels and clothing feel better on the skin.
- Smart Technology: Our purifiers are the only whole house drinking water purifiers in the world that have real-time multispectral water quality monitoring, which can instantly detect and warn you of water quality issues before you brew a cup of coffee, fill a pitcher of water, or even brush your teeth. Our phone app provides water quality readings, water usage, and the pH of your water. You will be alerted if anything is detected that will compromise the quality and safety of your drinking water.

# FEATURES

- > Rated for between 3 and 20 GPM at 55 PSI \*
- > Internal minicomputer operation
- > Binary Star technology embedded
- > Single point power connection, which includes solar
- > 10-Micron replaceable external bag filter for input water
- > 0.02-Micron ultrafiltration membranes internally
- > External long-life bacteriostatic carbon block filter on output
- > Wireless and Bluetooth communication
- > 304 Stainless steel or polypropylene copolymer case
- > IoT connectivity System, water, and environment monitoring

## CONFIGURABLE OPTIONS

- > 2" PVC, copper, or stainless steel piping
- > Input voltage (U.S. and Canada)
- > Automatic flushing
- > 100% organic disinfection
- > Magnetic flow meters
- > Customized programming, monitoring, and maintenance of external filters

## Our Caripur H2O Lux system provides:

- > Purified water at every tap
- > Chlorine removal for great tasting water
- > Hardness removal
- > Microbe removal
- > Chemical removal
- > Pharmaceutical removal
- > Sediment removal
- > No pressure loss
- > Self-cleaning
- > Real-time water quality reporting
- > Detection and notification of harmful elements in your water
